

1 were distributed at your request to you and also to the
2 rest of the members of our committee, we have got figures
3 which will indicate what the vote was at the one and same
4 time, same electorate going out to the polls. How many
5 of those who voted for Governor bothered to continue to
6 vote for their top county officials when they were already
7 at the polls? What was the voter drop-off in general?

8 DELEGATE CLARK: Delegate Byrnes.

9 DELEGATE BYRNES: Do you want to go each county?
10 I would suggest the answer to that is approximately 12
11 to 15 per cent.

12 DELEGATE CLARK: Delegate Chabot.

13 DELEGATE CHABOT: Delegate Byrnes, could we
14 relate that approximately 12 to 15 per cent drop-off
15 when people are already in the polling place to what the
16 figures were when they had to go a separate time to
17 vote for mayor in Baltimore City? What sort of drop-off
18 was there then? Was it as much as the 12 to 15 per cent
19 on the average?

20 DELEGATE BYRNES: My understanding it was
21 substantially more. It ranged down to 20 to 25 per cent
